

CHIMATA RAGHURAM

Python Full Stack Developer

chimataraghuram02a@gmail.com | +91 63035 06870 | Vijayawada, AP | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Python Full Stack Developer with experience building web applications using React, Django, and FastAPI. Experienced in AI integrations, LLM APIs, cloud technologies, and automation through internships and real-world projects.

SKILLS

Languages: Python, JavaScript, TypeScript **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
Backend: Django, FastAPI, Node.js, Express.js **Databases:** MongoDB, MySQL, Firebase
Cloud & DevOps: AWS EC2, Git, Docker, Vercel, Render
AI & Automation: Ollama, OpenRouter API, Google AI Studio, n8n, Prompt Engineering, GitHub Copilot, Claude Code, Codex
Libraries: NumPy, Pandas, Scikit-learn, OpenCV

EDUCATION

B.Tech in AI & ML | CGPA: 7.93 Aug 2024 – Present
SRK Institute of Technology, Vijayawada

Diploma in AI & ML | CGPA: 8.28 Jun 2021 – Jul 2024
St. Mary's Group of Institutions, Guntur

EXPERIENCE

Python Full Stack Intern — Nipuna Technology 11/2023 – 05/2024

- Built and deployed a full-stack dynamic website using Django, SQL database, and HTML/CSS/JS.
- Gained strong fundamentals in Python, MVC architecture and the software development lifecycle.

Cloud Computing Intern — APSSDC 05/2025 – 07/2025

- Deployed web apps on AWS EC2 with Nginx, security groups, HTTPS, and CI/CD pipelines.
- Worked hands-on with EC2, S3, IAM, Lambda; explored serverless architecture and monitoring.
- Built a cloud automation mini-project showcasing end-to-end AWS deployment workflow.

AI & ML Intern — SmartBridge 06/2025 – 07/2025

- Developed and trained machine learning models using Python on real-world datasets.
- Applied data preprocessing, model evaluation and deployment techniques across multiple projects.
- Completed internship under Google for Developers — India Edu Program in collaboration with SmartBridge.

PROJECTS

Project Finder — Multi-Platform Developer Research Engine | *React 19, Node.js, MongoDB, OpenRouter, Gemini API, Render*

- Built a unified discovery engine across GitHub, Hugging Face, Kaggle and LinkedIn via a live API proxy backend.
- Integrated OpenRouter + Gemini AI for architectural reviews and a Comparison Studio for side-by-side repo evaluation.

Live: <https://chimataraghuram.github.io/PROJECT-FINDER/> GitHub: <https://github.com/chimataraghuram/PROJECT-FINDER>

TechBoy Store — Smartphone Intelligence & Price Tracking Platform | *React, Vite, Tailwind, Django, Firebase Auth, n8n, Vercel*

- Built a smartphone intelligence platform with real-time price tracking, wishlist, comparison and TechBoy Trends.
- Implemented price alert system with Google OAuth — n8n workflows detect price changes and trigger email alerts.

Live: <https://techboy-store.vercel.app/> GitHub: <https://github.com/chimataraghuram/TECHBOY-STORE>

AWS EC2 Website Deployment — Ubuntu & Apache2 | *AWS EC2, Ubuntu, Apache2, Linux, SSH*

- Hosted a static website on AWS EC2 Ubuntu Server using Apache2, configured via SSH end to end.
- Gained hands-on experience with Linux server administration, security groups, IAM, and real-world cloud deployment practices.

CERTIFICATIONS & ACHIEVEMENTS

- IBM SkillsBuild — Build Your Own Chatbot: Conversational AI, NLP fundamentals, and chatbot design.
- Google — Gemini Certification: AI tools, Gemini API integration and generative AI application development.
- Google Arcade 2023 — Completed cloud & dev track challenges; earned recognition and swags for consistent performance.
- Hackathon Team Leader, St. Ann's College, Chirala | 2026 — Led a 4-member team during a college-level hackathon, coordinating task allocation and project execution.
